Allowable Subject Matter

Claims 1-3, 5-11, 13, 15, and 16 are allowed and renumbered to claims 1-13.

The following is an examiner's statement of reasons for allowance:

The claimed invention is directed to a ringing gel comprising an emulsifier, a water phase, and a silicone oil comprising at least one volatile silicone oil different from the oil phase, and said oil phase and said silicone component form gel by a high shear/pressure treatment in the absence of a thickening agent, wherein the oil phase mean droplet size is less than about 100 nm. Diec (US 6468551 B1) teaches an O/W gel with oil droplet size of less than about 100 nm, comprising an emulsifier, a water and oil phase, and cyclomethicone, a volatile silicone oil. Also present in the prior art gel is thickening agent. In view of the claim limitation which positively excludes thickening agents from the present composition, the instant invention is viewed nonobvious over the prior art..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gina C. Yu whose telephone number is 571-272-8605. The examiner can normally be reached on Monday through Friday, from 9:00AM until 5:30 PM..
